

# FORM M

## COLLEGE SCHOLARS MENTOR AGREEMENT

Before being officially accepted to the program, you must identify a faculty member who agrees to serve as your mentor in the program. If at any time you change mentors, you must fill out this form again.

Listed below is a description of the role of the College Scholar mentor, which is not meant to be exhaustive.

Mentor should:

1. Advise student each semester to prepare for course registration.
2. Help ensure that student remains focused in his/her proposed areas of emphasis through courses and projects for the major.
3. Help student develop his/her senior project proposal.
4. Serve on the student's senior project defense committee.

Please make a copy of this form for your mentor to keep on file.

New scholars need to return original copy with signatures to the College Scholars Office as soon as possible; others should turn this in when changing mentors.
