Research Council Forum:

**Research, Scholarship & Creative Activity: The Road Ahead**

Panel One in a Four-Part Series

Wednesday, March 5
4:00-5:30
Room 307 SERF (Science Engineering & Research Facility)

Panel One Members:
Doug Birdwell, *Electrical Engineering & Computer Science*
Dorothy Habel, *Art & Architecture*
Soren Sorensen, *Physics*
Erec Koch, *Foreign Languages*
Becky Fields, *Nursing*
Jeff Becker, *Microbiology*
Hamparsum Bozdogan, *Statistics*

Focal Points Panel One:
- *Is the UTK intellectual community growing?*
- *What are our opportunities and constraints?*
- *Is Research and scholarship promoted and recognized?*
- *Visions for the future of UTK as flagship of the University?*

You are invited to a town hall meeting introduced by the diverse Faculty panel members’ views. The purpose is to stimulate audience participation in an open Faculty discussion about UTK as the flagship of the University as we chart our course through difficult times, in the face of obstacles. It is also a process for discovering and creating new opportunities for growth in our scholarship, creative activities and research. Each panel in the series will feature different members and will address emergent new topics. In this format for collegiality and solidarity, our voices will be heard in a public way. The Research Council is committed to making this an opportunity for interdisciplinary empowerment as we envision our diverse needs and goals. Add your voice by attending and participating in these events.

Refreshments will be served

All Faculty Invited
