>> DO YOU HAVE SPECIAL INTERESTS, EXPERTISE & SKILLS <<

THIS SECTION IS OPTIONAL

Would you like to share your interests, expertise and skills with others? If so, please list them below. This helps members identify others with similar interests, learn more about their machines and more accurately restore them. It is also a great way to learn more about club members.

List any information you are willing to share with your current and future friends. You can list general terms or specific machines and interests. You do not have to actually own the stuff you list - just an interest, expertise or skill that can help others.
