ACADEMIC POLICY COMMITTEE REPORT

**Academic Policy Committee Meeting
April 2, 2009**

Transfer Credit Policy: Study Abroad Programs

- Students who participate in UT Knoxville study abroad programs and register for UT Knoxville courses earn the same graded credit as they would for courses taken on campus. All grades are calculated in the UT grade point average.
- Students who participate in all other study abroad programs from accredited institutions will earn satisfactory (S) credit for A through C grades and NC credit for C- through F grades for completion of comparable coursework. The S/NC grades are not calculated in the UT grade point average, but all hours count toward the "HOPE" TELS attempted hours.

ADVISING COMMITTEE REPORT

Undergraduate Council Advising Committee February 10, 2009 Minutes

1. Missy Parker chaired the meeting in Ruth Darling's absence.
2. **Math placement** - Chuck Collins updated the committee regarding math placement scores and changes in placement enforcement. [See attached handout.](#) Advisors discussed implications for first-year orientation programs and academic planning.
3. **Undergraduate Admissions** - Nancy McGlasson provided an update on fall 2009 freshman admissions. 11,753 applications have been received and 3,444 students have been admitted so far. By the end of next week decisions will have been made for all applications that were complete by January 1st. Undergraduate Admissions will provide more information and FAQ 's soon. We anticipate another very good first-year class with continued high ACT scores and core high school GPA's.
4. **TennACADA** – Brian Russell announced a program scheduled for February 26th at 3:30 in either HBB or I-house depending on expected attendance. This will be a Webinar/discussion on cultural competencies in advising. TennACADA will send an email announcement soon to advising faculty and staff.
5. The balance of the meeting was devoted to a discussion by Advising Directors and staff regarding the advising policy in the catalog and the advising mission statement. The Advising Deans and Directors will be meeting for a professional development retreat with Dr. Susan Campbell on February 23. Dr. Campbell is a nationally known expert in the field of academic advising, assessment, and learning outcomes. She served as one of the outside consultants for the Academic Advising Program Audit last spring.

Math Department Update for UGC Advising Subcommittee 2/10/2009

1. Placement Enforcement: we've been enforcing placement and pre-requisite for Math 123 and Math 125. Both require Math 119 or Placement Level 4+, (3+ with 3.75 GPA). Student receive multiple email warnings before they are dropped. They may need to return to advising to get proof that they meet pre-reqs. What can you do?
 1. Tell students that if they go against placement that they will be dropped and they will then most likely not be able to get into any math class.
 2. Check the records for transfer courses that are equivalent to College Algebra 119. They will probably have a title like 'College Algebra'. If it says 'College Math', 'Basic' or 'Intermediate Algebra' it is most likely not equivalent. Math 113 and Math 115 are not acceptable as pre-reqs for 123/125. 'Precalculus' and 'AlgebraTrig' would also be okay.

Put a note in the students file, or give them a letter showing this evaluation as they may need to show it to their instructor.

3. If they don't have a placement score, have them contact Marti McClard to schedule a time to take the placement test.

2. Math 109 Changes for Fall 2009: due to limited space, we'll only be offering 109 for Math 119 and Math 130. Please only encourage students with Placement Level 2 (119) or 4 (130) into 109.

3. Class Attendance Required: starting in Fall 2009, we'll be requiring students to attend at least on of the first 2 class meetings otherwise they'll be dropped.

4. Strategic Class Offerings: depending on staffing cuts, we'll be carefully scheduling our course offerings in 09-10. Priority will go to classes tied to progress in a major. We'll send out notifications as soon as the budget comes through.

5. Placement Future: for summer orientation 2010, we'll have some new form of placement, based on an online test, math ACT, or some combination. Details later.

Undergraduate Council Advising Committee March 10, 2009 Minutes

1. Academic Program Guides: <http://www.utk.edu/academics/programs/>
Advising Directors are in the process of updating the Academic Program Guides for this coming academic year using a new on-line process developed by Erik Bledsoe in Creative Services. The Program Guides received over 9,000 hits in the past month and were viewed by slightly over 2,700 people. Majors receiving the highest number of hits were Pre-Vet and Exercise Science.
2. AdvisorTrac Update: Over 30,000 student files have been successfully downloaded into AdvisorTrac in the College of Business. The beta testing is on schedule. Training and implementation will begin in Arts and Sciences this summer.
3. Transfer Policy Updates: Grade of C- will no longer accepted as transfer credit unless under an Articulation Agreement or An Associate's Degree from a TBR. All grades from a previous institution will now be calculated in the BGI transfer GPA and admission decisions will be based on that GPA.
4. PLAN Sub-committee update: Plan, Learn, Advise, Navigate (PLAN) is a proposed model for communicating with students about the necessity for planning their degree programs and carefully monitoring progress towards the degree. Specific tools used by both students and advisors include the UT Catalog (now on-line), DARS (Degree Audit Report), Major Program Guides (on-line), and "What Can I Do with a Major in..." guides from Career Services (on-line). Also proposed is a central website on academic advising that connects to the various resources and colleges - is easily located on the UT web site and focused sections of FYS 101 that are specifically for students enrolled in a particular college.
5. Advising Directors reviewed the success data from the 2008 January entering first year students and discussed ways to address these students' needs.

CURRICULUM COMMITTEE REPORT
